

# POT MAGNETS WITH STEEL BODY

Alnico magnets are a type of magnetic bases that are characterized by the magnetization of one side and the magnet being protected, avoiding wear. Alnico pot magnets with steel can be found in separators, motors and generators.

Material	Alnico
Shape	Cylinder
Diameter (A)	6 - 63 mm*
Thickness (C)	10 - 60 mm*
Tolerance	+/- 0,1 mm*
Magnetisation	Axial*
Quality	Alnico*
Max. working temperature.	450°C*

\*These characteristics can be modified if they are tailor made.

**WARNING**

The use of permanent magnets is especially contraindicated for people who use pacemakers. Do not bring electronic devices, watches, credit cards, magnetic cards, calculators, precision instruments, or other magnetic materials close together, as this may irreversibly alter or damage their proper functioning.
