

FERITE POT MAGNETS

Thanks to their low weight and great attractive force, they are perfect for use in any clamping system. Covered with a metal casing that prevents any blow or breakage of the magnet itself, thus having greater security. They are very easy to manipulate thanks to their holding method.

Material	Ferrite
Shape	Disk
Diameter (A)	10 - 125 mm*
Thickness (C)	4,5 - 26 mm*
Tolerance	+/- 0,1 mm*
Magnetisation	Axial*
Coating	Sin*
Quality	Y30BH*
Max. working temperature.	250°C*

*These characteristics can be modified if they are tailor made.

WARNING

The use of permanent magnets is especially contraindicated for people who use pacemakers. Do not bring electronic devices, watches, credit cards, magnetic cards, calculators, precision instruments, or other magnetic materials close together, as this may irreversibly alter or damage their proper functioning.
