

RUBBER COVERS FOR NEODYMIUM POT MAGNETS

These rubber sleeves cover the neodymium magnetic bases, allowing handling and working without damaging any surface. Its use is recommended on painted or varnished articles, or in applications where a great force of attraction is needed, without damaging the surfaces.

Material	Rubber
Shape	Disk
Diameter (A)	27 - 83 mm*
Thickness (C)	4 - 11 mm*
Tolerance	+/- 0,1 mm*

*These characteristics can be modified if they are tailor made.

WARNING

The use of permanent magnets is especially contraindicated for people who use pacemakers. Do not bring electronic devices, watches, credit cards, magnetic cards, calculators, precision instruments, or other magnetic materials close together, as this may irreversibly alter or damage their proper functioning.
