

Statement regarding RoHS and Directive 2015/863:

Compliance and non-use

Directive 2002/95/EC was approved in 2002 and restricts the use of six hazardous materials found in electrical and electronic products. All applicable products in the EU market since July 1, 2006 must pass RoHS compliance.

Directive 2011/65/EU was published in 2011 by the EU, which is known as RoHS-Recast or RoHS 2. RoHS 2 includes a CE-marking directive, with RoHS compliance now being required for CE marking of products. RoHS 2 also added Categories 8 and 9 and has additional compliance recordkeeping requirements.

Directive 2015/863 adds four additional restricted substances (phthalates) to the original list of six. The restriction on the four additional substances went into effect on July 22, 2019, for all electrical and electronic equipment other than categories 8 and 9. The restrictions on categories 8 and 9 will take effect on July 22, 2021.
