

# SPECIAL NEODYMIUM GEOMETRY

Neodymium magnets with special geometry are delivered with Nickel plating. These pieces are made 100% to measure and you can define both the shape and the magnetization, measurements, tolerance, coating, maximum working temperature, etc...

Material	NdFeB
Length (A)	To be defined*
Width (B)	To be defined*
Thickness (C)	To be defined*
Inside (D)	To be defined*
Tolerance	+/- 0,1 mm*
Magnetisation	Axial*
Coating	Ni-Cu-Ni*
Quality	N45*
Max. working temperature	80°C*

\*These characteristics can be modified if they are tailor made.

**WARNING**

The use of permanent magnets is especially contraindicated for people who use pacemakers. Do not bring electronic devices, watches, credit cards, magnetic cards, calculators, precision instruments, or other magnetic materials close together, as this may irreversibly alter or damage their proper functioning.
